EXPERIENCE

Aquinas Leadership Group, Cary, NC — *Junior Developer*
August 2020 - PRESENT

I am responsible for programming our AI trainer to be able to communicate properly with our pharmaceutical salesmen.

Impromp2 Interns, Apex, NC — *Intern*
May 2020 - August 2020

Underwent a 12 week internship with two other software engineers. We worked together under the tutelage of a senior engineer to build a Rails web app that organizes sports events. We learned how to leverage our differing backgrounds, experience levels, and creative instincts to develop and execute one cohesive vision.

Jon's Lawns, Raleigh, NC —Owner
January 2019 - PRESENT

Owned/operated a local lawn maintenance business

Jon's Moving, Raleigh, NC — *Owner*
June 2018 - June 2020

Owned/operated a local moving business

EDUCATION

Wake Tech, Raleigh — *Associate of Arts*
January 2014 - December 2016

Code the Dream, Raleigh — *Bootcamp*
November 2020 - February 2021

FRAMEWORK

Rails

Goal

I would like to take a software development role where I can use my skills to add value to a team, as well as learn and develop as a programmer.

PROJECT

Vamos Sports is a Rails web app that handles the organization of sports related meetups. Some of the tasks I was responsible for included

- .Created and migrated tables in a SQL database

- .Used aggregate functions in the database

- .Created Routes

- .Implemented Devise

- .Created and tested models, controllers, and views

- .Worked, planned, and designed with my team
